Premium grade acetic cure glazing weather-proofing silicone, superior adhesion to painted and anodised aluminium and glass, will not slump in typical construction joints, excellent natural ageing stability, will maintain its elastomeric joint sealant properties permanently, and has excellent U.V. stability

- Uses:
- Frameless shower screens
 - Structural Glazing (glass to glass applications)
 - Finn and butt and general glazing
 - Toughened glass assemblies
 - Aquariums and fibreglass applications

Glazing - Architectural

Code	Size	Colour	Cure	Box Qty
G07 V60TRANS	300 gr	Translucent	Neutral	15
G07 V60GREY	300 gr	Grey	Neutral	15
G07 V60SILVER	300 gr	Silver	Neutral	15
G07 V60WHITE	300 gr	White	Neutral	15
G07 V60BLACK	300 gr	Black	Neutral	15
G07 V60MATBLACK	370 gr	Matt Black	Neutral	15

- Uses:
- Weather sealing in curtain walls, building facades and of composite metal panels.
 - Structurally glazed systems, fin glazing, toughened glass assemblies and general glazing applications,
 - Sealing of laminated & reflective glass, mirrors and splashbacks

H.B.Fuller
