# Construction Adhesives
## H.B. Fuller
### Trade Construction Adhesive

| Code | Size | Colour | Dispenser | Box Qty |
|------|------|--------|-----------|---------|
| G03 FTCA | 300 gr | Tan | Cartridge | 20 |

A multi-purpose adhesive, ideal for bonding most common building materials.

Uses: Fitting wood panelling, fibre cement, plasterboard, plywood and strip flooring to wooden or metal framework. Bonding skirting boards, architraves and trims to walls. Installing timber wall panelling to timber and metal studs.

Features: Repositionable for up to 20 mins after application / High bond strength / One part - no mixing / Reduces squeaking associated with nail ride / Paintable / Water Based

Compatible Substrates: Wood, Fibreglass, Concrete, Brick, Steel, Aluminium, MDF, Ceramic

\* Clean up with mineral turpentine if wet. \* Our code: **G38 MINTURPS** \*please advise the litre quantity required when ordering.
\* Use a scraper / sandpaper to remove cured product. See our sandpaper collection under the **Grinding and Cutting** tab in the Associated Products page.

### Max Bond

| Code | Size | Colour | Dispenser | Box Qty |
|------|------|--------|-----------|---------|
| G03 FMC | 320 gr | Tan | Cartridge | 20 |
| G03 FMCS | 600 ml | Tan | Sausage | 15 |
| G03 FMC900 | 900 gr | Tan | Jumbo Cartridge | 12 |

Is a high strength, rigid, synthetic rubber based adhesive designed primarily for the installation of wood (timber) sub-flooring, architraves and wall panels.

Uses: Installing particle board, fibre cement, plasterboard, plywood and strip flooring to joists. Bonding cement sheet and plaster board to timber or metal studs and joists. Skirting boards, architraves and trims to walls. Installing timber wall panelling to timber and metal studs and joists.

Features: Bridges small gaps / Multi Purpose / effective when used on uneven surfaces / Repositionable for up to 20 minutes after application / Water resistant/ High bond strength and heat resistance.

Compatible Substrates: Concrete / Fibre cement sheeting / Masonry Metal / Steel inc. stainless / Zinc/Galvanised steel / Plasterboard Timber / Plywood / Particleboard

\* Clean up with mineral turpentine if wet. \* Our code: **G38 MINTURPS** \*please advise the litre quantity required when ordering
\* Use a scraper / sandpaper to remove cured product. See our sandpaper collection under the **Grinding and Cutting** tab in the Associated Products page.

# Construction Adhesives

## Max Bond Panel Grip

| Code | Size | Colour | Dispenser | Box Qty |
|------|------|--------|-----------|---------|
| G03 FMPG | 280g | Pale Yellow | Cartridge | 20 |

Is a high strength, fast grab, neoprene rubber-based construction adhesive with exceptional wet grab strength.

Uses: Ideal for vertical and overhead applications where instant grab and a strong bond is required / Bonding skirting boards and architraves / Installing panelling and fixtures / General building and construction applications

Features: Exceptional wet-grab strength / Suitable for a wide range of general purpose construction materials / High bond strength / Suitable for interior/exterior use / Suitable for use with damp timber

Compatible Substrates: Concrete/ Fibre cement sheeting / Masonry/Brick Metal / Steel / Plasterboard / Timber / Plywood / Particleboard

* Clean up with mineral turpentine if wet. Our code: **G38 MINTURPS** *please advise the litre quantity required when ordering
* Use a scraper / sandpaper to remove cured product. * See our sandpaper collection under the **Grinding and Cutting** tab in the Associated Products page

## Max Bond Rapid Cure

| Code | Size | Colour | Dispenser | Box Qty |
|------|------|--------|-----------|---------|
| G03 RCPU | 310ml | Translucent | Cartridge | 12 |

Is a rigid/hard set polyurethane adhesive for use where strong, stress resistant bonding is required

Uses: Joinery and cabinet making where rigid bonding is required / Pergola and decking construction / Bonding carpet grip strips to floors and subfloors / ) Bonding where fast cure is required / Green star building suitable (solvent free)

Features: One hour clamping time / Water resistance – interior and exterior (D4 class) / Bonds to most substrates / Will not allow joints to move/flex / Foams slightly if not clamped / Bond strength significantly improves when clamped

Compatible Substrates: Timber / Concrete / Steel / Metal / Fibre cement sheeting / Particleboard / Plasterboard

* Clean up with mineral turpentine if wet. * Our code: **G38 MINTURPS** *please advise the litre quantity required when ordering
* Use a scraper / sandpaper to remove cured product. See our sandpaper collection under the **Grinding and Cutting** tab in the Associated Products page.

# Construction Adhesives

## Max Bond Fast Grip

| Code | Size | Dispenser | Box Qty |
|------|------|-----------|---------|
| G03 MBFG | 420g | Cartridge | 20 |
| G03 MBFG600 | 600ml | Sausage | 15 |

Is a water based, premium grade, multi purpose construction adhesive that is easy to use and provides a strong initial grab

Uses: Bonding panelling to framing e.g. cement sheet, plywood, plasterboard / Bonding subfloors to timber joists e.g. particleboard, plywood / Bonding strip flooring and parquetry to subfloor and concrete slabs

Features: Water based, high bond strength and heat resistance when cured / Versatile / Fast initial grab / Low VOC / Low odour / Meets AS 2329, bridges gaps up to 5mm / Non-flammable and solvent free / Reduces squeaks in floors

\* Clean up uncured adhesive with water.
\* Clean up cured material with a knife or scraper.

## Sika Bond Instant Nails

| Code | Size | Colour | Dispenser | Box Qty |
|------|------|--------|-----------|---------|
| G03 SBIN | 290ml | White | Cartridge | 12 |

Is a premium, water based, multi purpose construction adhesive providing strong initial grab and high bond strength

Uses: Fixing polystyrene wall panels / Replacing loose tiles on walls
Skirting boards, architraves and trims to walls / Bonding panels to wall
studs / Bonding particleboard, plywood, fibre cement and strip flooring to joists

Features: High bond strength and heat resistance / Flows easily at all temperatures / Easy clean up / Fast initial grab – minimises slippage on vertical surfaces / Paintable with water based surface coatings / Easy to use one component / Bridges gaps up to 9 mm

Compatible with most substrates due to its excellent adhesion properties

\* Clean up with mineral turpentine if wet.
Our code: **G38 MINTURPS**  \* please advise the litre quantity required when ordering
\* Cured material can only be removed mechanically.

## Construction Adhesives
### Soudal Strong as Nails FIX IT

| Code | Size | Colour | Dispenser | Box Qty |
|------|------|--------|-----------|---------|
| G03 SSANCA | 320g | Beige | Cartridge | 12 |

Solvent based high performance, gap filling construction adhesive. High bond strength. Suitable for vertical and horizontal bonding applications, both inside and  outside. Does not attack Polystyrene.

Uses: All bonding in assembly techniques / Bonding in the renovation industry / Bonding in construction industry / Bonding of cable trays and panels

Features: Multi-purpose / High performance / High bond strength / Easy to extrude / Waterproof packaging / Excellent adhesion to most building materials

Compatible Substrates: Various porous and non-porous surfaces such as wood, concrete, stone and other materials commonly used in construction.

\* Clean up uncured material with Soudal Swipex. Our Code: **S04 WORK008**.
\* Clean up cured material with Soudal Adhesive Remover or remove mechanically.
